ACADEMIC DETAILS

Graphic Era Deemed To Be University, Dehradun	2023 – Present
B.Tech (CSE) - AI & ML	9.01/10.00
Ann Mary School, Dehradun	2023
CLASS XII (ISC)	86%
Ann Mary School, Dehradun	2021
CLASS X (ICSE)	96.4%

PROFESSIONAL EXPERIENCE

DATASPARSHTECH LLP	Aug 2025 – Dec 2025
Artificial Intelligence and Machine Learning Intern	Remote
- Developed 2 computer vision pipelines for urban infrastructure monitoring using PyTorch, OpenCV, and YOLOv8. - Trained models on 45,000+ labeled road images using NVIDIA CUDA acceleration, reducing training time by 35%. - Implemented Non-Maximum Suppression (NMS) optimization to eliminate redundant detections, improving bounding-box precision by 18%. - Achieved detection performance of 83% accuracy on validation datasets through dataset preprocessing and hyperparameter tuning.	

PROJECTS

Project Drishti – Urban Infrastructure Monitoring <i>OpenCV, PyTorch, YOLOv8, Roboflow</i>	Aug 2025 - Dec 2025
- Guide Name: <i>Mr. Dibyash Bordoloi</i> - Designed a YOLOv8n model to detect potholes, billboards, and traffic signs from road images. - Trained the model on 45,000+ labeled images collected from Kaggle and custom datasets. - Achieved reliable detection performance with an overall F1-score of 0.83.	
Behavioral Analysis-Based Customer Segmentation <i>Scikit-learn, NumPy, Matplotlib</i>	Jan 2025 - March 2025
- Guide Name: <i>Mr. Deepak Gaur</i> - Segmented 50,000+ customers into 5 clusters using K-Means Clustering, improving marketing effectiveness by 30%. - Built a Random Forest classifier with 100 trees, achieving 94% accuracy. - Reduced prediction time by 15% through feature engineering and hyperparameter tuning.	
Spam Detection <i>Python, NLTK, Scikit-learn, Pandas</i>	April 2025 - May 2025
- Formulated a Naive Bayes model to classify 58,000 emails with 98% accuracy, reducing false positives to 1.3%. - Applied text preprocessing techniques to improve model efficiency by 20%. - Enabled real-time spam filtering with an average classification time of 0.5 seconds per email.	
SIMPLFY – Smart Finance Management <i>React.js, MongoDB, OpenAI API</i>	Dec 2024 - Feb 2025
- Developed a full-stack finance management platform using React.js and MongoDB for budgeting and expense tracking. - Integrated an AI chatbot for real-time financial assistance and automated insights. - Implemented interactive dashboards and PDF export for financial analysis.	

TECHNICAL SKILLS

Languages: C, C++, Python, Java

Machine Learning Tools: Jupyter Notebook, Google Colab, Anaconda, Kaggle, MATLAB

Frameworks/Libraries: Scikit-learn, TensorFlow, PyTorch, OpenCV, Pandas, NumPy, Matplotlib

SCHOLASTIC ACHIEVEMENTS

AWS JAM Day Event – Graphic Era University	2025
– Recognized among the top 10 performers for problem-solving and hands-on lab performance during AWS JAM Day.	
Google Cloud Computing Foundations Certificate	2024
– Completed foundational training in cloud computing concepts and Google Cloud services.	
Code For Bharat '25 National Hackathon Finalist	2025
– Presented SIMPLFY , a AI-enabled personal finance management platform.
